Albion and Adam,  
This serves as notification that the Laramie River Station "LRS TEOM" Site (56-031-0805) has recorded four 24-hour PM10 exceedances in 2021:

<u>Date</u>	<u>24 hour PM10 (ug/m3)</u>
1/13/21	303.2
2/22/21	190.4
3/29/21	768.5
6/10/21	345.8

The facility has indicated that there were high winds present during these exceedances and they would like to flag these data as exceptional. The AQD is currently reviewing their quarterly report to determine next steps in our process.

Please contact me or Jacob Berreth if you have any questions,
